The University of Hawai‘i National Foreign Language Resource Center engages in research and materials development projects and conducts workshops and conferences for language professionals among its many activities.

CULTURA: WEB-BASED INTERCULTURAL EXCHANGES (OCTOBER 10-11, 2009)

The Cultura project, pioneered at MIT by Gilberte Furstenberg and her colleagues, has inspired a variety of online cultural exchanges based on a set of principles and best practices. The Cultura: Web-Based Intercultural Exchanges pre-conference event will feature presentations by a variety of educators who have created exchanges based on the Cultura model.

LANGUAGE LEARNING IN COMPUTER MEDIATED COMMUNITIES (LLCMC) CONFERENCE (OCTOBER 11-13, 2009)

Once, computers were seen as thinking machines or electronic tutors. Now the computer has become one of many devices that people use to form virtual communities of all kinds. In the field of language education, computer mediated communication (CMC) enables students to interact with one another free of space and time constraints and to participate in communities of learning with their counterparts in the target culture. The Language Learning in Computer Mediated Communities (LLCMC) Conference explores the use of computers as a medium of communication in language learning communities.

Conference highlights will include a plenary talk by Dr. Gilberte Furstenburg (MIT), a special panel presentation showcasing online cultural exchanges based at the University of Hawai‘i, and a variety of intriguing concurrent sessions.

NEW NFLRC PUBLICATIONS

Second language teaching and learning in the Net Generation

Today’s young people—the Net Generation—have grown up with technology all around them. However, teachers cannot assume that students’ familiarity with technology in general transfers successfully to pedagogical settings. This volume examines various technologies and offers concrete advice on how each can be successfully implemented in the second language curriculum. Browse the table of contents
